

Open a world of opportunities.

- ▲ Holistic approach to training ▲ Importance to Industry-focused Training ▲ Certified ISO 9001 institution (since 1998)
- ▲ 95+% Placement record ▲ Periodic Review of curriculum by an academic council
- ▲ Over 20 Training Centres across India with Hostel facilities

NTTF Murbad Campus

TECHNO EDUCATION FOR GLOBAL COMPETENCE

Dear Sir/ Madam,

NTTF is an ISO 9001-2008 certified Training Institution established in the year 1963 with Swiss Co-operation which provides purposeful need based quality education to Indian youth.

NTTF is a not for profit organisation providing employability to the youth of India. NTTF started its first Training Centre in Nettur, Kerala in the year 1959. We celebrated our Golden jubilee in November, 2009. NTTF now, provides Vocational Training in various disciplines through its Thirty Training Centres located in the States of Kerala, Karnataka, Tamilnadu, Andhra Pradesh, Maharashtra, Jharkhand, Uttarakhand and Sikkim.

The above centres offer diploma courses/training in diverse areas such as Tool & Die Making, Electronics, Mechatronics, Computer Engineering, Information Technology and Manufacturing Technology. These courses are relevant for the manufacturing and services sector.

The three year course converts our students to highly attractive talent for industry. The number of beneficiaries of NTTF training over the years exceeds 37,000. We have several of our alumni who are employed and entrepreneurs not only in India but also in several countries abroad like Australia, New Zealand, Taiwan, Vietnam, Thailand, Malaysia, Singapore, US, Brazil etc.

Most of our students get employment offers in the last semester of their courses. Our employment record has been 95% plus. In fact every student who passes with decent marks is almost assured of employment. We have about 400 corporate sector employers who come and recruit from us, many of them regularly.

Besides the above, our other training programmes include Tailor made programmes for various Industries, Learn & Earn training model, a unique student-Industry friendly programme, for industries like, M/s. Ashok Leyland, M/s. Saint Gobain, etc.

About NTTF Murbad:

Located on a lush green 10 Acres plot, MNTC (Murbad NTTF Training Centre) was established in 2009 in association with M/s Technocraft Industries.

Facilities:

Classrooms with audio visual facilities including Video Conference System (VCS), workshops and labs to acquire hands on skills, well equipped library & internet facilities to support quest for knowledge & information are available. Campus environment supports the holistic development of trainees. Tablet PCs are given to every student, to support their curriculum.

Training & Evaluation

Learn while producing and produce while learning. Continual evaluation with daily, weekly & monthly assessments, common qualifying exams, centralized examination cells, etc., are the hallmarks of NTTF's training methodology. Co-curricular activities include Medical and blood donation camps, Sports, Games and cultural activities, Social clubs and ownership concepts, etc.

Courses offered in Murbad centre:

1. Diploma in Tool & Die Making
2. Diploma in Mechatronics

Diploma in Tool & Die Making:

Three year diploma program followed by 1 year of industrial training. The trainees during the course learn to design and manufacture intricate Press tools, Plastic moulds, Die casting dies, Jigs & Fixtures and Gauges independently. Industrial project work, in association with M/s. Technocraft Industries forms part of this course, during the final year.

Diploma in Mechatronics

Three year diploma program designed exclusively to meet the requirements of the industries dealing with the maintenance of CNC system, Automaton, AC/DC drives, Instrumentation, Power electronics & Control systems. They are also given training in Robotics / PLC / Embedded System. Industrial project forms part of the course, during last quarter.

Eligibility Criteria for above courses:

Pass in 10th std. / SSLC/12th/PUC/Vocational course with minimum 35% marks in Science and Mathematics individually.

Age: Less than 21 years, as on 31.12.2014.

Centre run in association with:

TECHNOCRAFT INDUSTRIES (INDIA) LTD,

A-25, MIDC, Road No. 3,
